

We were so pleased to be able to welcome Charlotte and Sophie, from Community Dental Services , onto two of our online groups. They were able to answer questions from parents about their babies/children dental health and also gained some really useful information and advice from ‘when to introduce cleaning teeth’; to weaning advice and sugar in foods’; etc.

Some links that were shared were:

[www.Communitydentalservices.co.uk](http://www.Communitydentalservices.co.uk) – if you click onto the ‘patients info’, you will see a section called ‘children’s leaflets.’

[www.nhs.uk/start4life](http://www.nhs.uk/start4life)

If you have any questions on anything to do with your babies/children’s dental health please do contact us and we can forward these onto Charlotte, who will be pleased to answer your questions individually, [Charlotte.Iddon@cds-cic.co.uk](mailto:Charlotte.Iddon@cds-cic.co.uk)
